

FLASHLYT.COM
JOIN OUR ONLINE COMMUNITY NETWORK
(Communication Network Membership)

Flashlyt.com developed the (cnetweb.org) Community Network to provide community based organizations with the online tools to promote their organization online and communicate with our network members and visitors. The Communication Network assist Non-Profit organizations and Christian churches and ministries utilize the Internet to reach millions of Internet users.

Does Your Church Have A Website?

Join today and we will work with your church to open not only the physical door of your church, but the spiritual door to family and friends across the country. Keep new members informed of the ministries available. Extend Bible study, the Sunday school lessons and prayer requests online for sick and shut in members. Engage the casual worshipers to become regular worshipers by keeping them informed and engaged in your church activities. College students and military personnel will have a vehicle to stay connected to their home church. In today's mobile society, we can make and meet disciples where people are, all around the world and in our backyard.

There is no limit to the ministries that open up for your church or ministry with a well designed and maintained website! With each annual paid membership in the Community Network of **\$275.00**, Flashlyt.com will work with your church Communication Ministry to develop a site that meets your ministry needs. Then we will maintain your website content, provide technical support and promote your ministry programs on the Community Network. (http://www.cnetweb.org/cme_network.htm)

As a member of the Cnetweb.org Community Network, **Forministry.com**, a division of the American Bible Society, will provide hosting services for Christian church websites worldwide, **FREE OF CHARGE**. Churches must utilize template designs provided by Forministry.com. Church websites wishing to **transfer** hosts are not eligible to receive the free hosting and maintenance services.

With the free domain hosting service, your website is assigned an ID upon completion of the registration process. Your ID enables visitors to access your website on the Internet. (i.e. www.forministry.com/GACMEPCMCATL) **If your church is interested in registering a personal domain name (i.e. www.stjohn.org) an additional charge of \$25.00 is required.**

Your Community Network Membership services include:

- Development and maintenance of your church website hosted by Forministry.com
- Online directory listing of your church with email and website address
- Site Content Coordination
- Promotion of your church activities and website to our Community Network
- Monthly updates
- Online News and information relevant to the Community and your members via email and Internet posting on our Communication News page.
- News Flash via email to registered members.
- Technical support

Contact us today to move your ministry online!
